WHAT WE DO FOR THEM

We keep the platform a **safe place** for **creativity and expression** to **retain users and attract new ones**.

Our **Short and Long Form Videos Moderation** maintains platform reputation by **removing harmful content** and **mitigating the spread of misinformation**.

Our **Live Content Moderation** allows viewers and creators to have an engaging experience through **safe and real-time interaction**. Dedicated teams look after key projects such as **High Value Creator, Gaming, E-commerce, and Multi-Live**.

Our **ADSO Content Moderation** provides safety and non-safety data annotation and search operation services for the client's international products. It also sets up the platform's algorithms from labeling, to building **personalized content recommendations** based on **user preferences**.

Our **Emerging Product** solution covers platforms that are currently **outside of the client's main product**. These products vary from social media, music apps, interactive AI, video and photo editing apps, streaming service apps, and gaming.

KEEPING OUR EMPLOYEES SAFE

We are committed to ensuring that our team is supported so that they can thrive in their role and remain healthy in mind and body.

We have a curated employee wellbeing program available to employees from the moment they are considered for a role in the team, until long after they separate from the company.
